Water Analysis Price List

PARAMETER	TESTING METHOD	PRICE
PH	Probe	\$2
Turbidity	Turbidimeter	\$2
Conductivity	Probe	\$2
Salinity		
TDS		
Calcium		
Magnesium	Probe	\$5
Total Hardness		
Combined nitrate/nitrite	Cadmium Reduction Method with Colorimeter	\$6
Phosphate	Orthophosphate Ascorbic Acid Method with Colorimeter	\$6
Iron	FerroVer Method with Colorimeter	\$5
Manganese	Periodate Oxidation Method with Colorimeter	\$7
Arsenic	Test Kit	\$15
Free Chlorine	DPD Method with Colorimeter	\$5
Total Coliforms with pH & Turbidity	Membrane Filtration, incubation at 37.5 deg C	\$11
E. Coli with pH & Turbidity	Membrane Filtration, incubation at 44 deg C	\$11
Total Coliforms & E.Coli with pH & Turbidity	Membrane Filtration, incubation at 37.5 deg C	\$15

AVAILABLE PACKAGES:

Standard test for drinking water		
PH, Turbidity, Conductivity (TDS & Salinity), Total Hardness, Nitrates, Phosphates Manganese, Iron, Total Coliforms & E. Coli	Methods to be used as applicable	\$42

Swimming Pool – Salt Water		
PH, Turbidity, Conductivity (TDS & Salinity), Total Hardness, Nitrates, Phosphates, Manganese, Iron, Total Coliforms & E. Coli	Methods to be used as applicable	\$42

Swimming Pool – Chlorinated		
As above + Free Chlorine and Copper	Methods to be used as applicable	\$53

Complete Screening (All parameters)		
PH, Turbidity, Conductivity (TDS & Salinity), Total Hardness, Nitrates, Phosphates, Manganese, Iron, Total Coliforms & E. Coli, Free Chlorine, Arsenic.	Methods to be used as applicable	\$ 61

SAMPLE COLLECTION FEES

5 Km radius from lab	\$5
Up to 20 Km radius from lab	\$10
More than 20 Km radius from lab	On request
